PROCLAMATION 2611

CANCER CONTROL MONTH—1944

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA

A PROCLAMATION

WHEREAS in time of war as in time of peace it continues to be our high responsibility to maintain proper standards of health and human welfare;

WHEREAS in the midst of the necessities of war and the prevailing shortages of physicians and surgeons we may be tempted to neglect the constant watchfulness and the programs of popular education which are at present our one hope of preventing those tens of thousands of deaths from cancer which result each year from lack of early attention; and

WHEREAS by Public Resolution 82, 75th Congress, approved March 28, 1938 (52 Stat. 148), the President is authorized and requested to issue annually a proclamation setting apart the month of April of each year as Cancer Control Month:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby set apart the month of April 1944 as Cancer Control Month and invite similar action on the part of the Governors of the several States, Territories, and possessions of the United States. I call upon the medical profession and upon all agencies, organizations, and individuals in a position to claim public attention, to disseminate knowledge of the early symptoms of cancer and to effect wide-spread publication of the facts about clinics and other health facilities for the control of cancer.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the city of Washington this 28th day of March, in the year of our Lord nineteen hundred and [SEAL] forty-four, and of the Independence of the United States of

America the one hundred and sixty-eighth.

FRANKLIN D. ROOSEVELT

By the President:

CORDELL HULL,

PART 1010—SUSPENSION ORDERS

[Suspension Order S-502]

CARL JULIUS CARLSON

Carl Julius Carlson resides in Riverside, California, and is engaged in the general contracting and building business in that locality. On or about February 1, May 15, and July 26, 1943, respectively, without authority, he commenced certain construction which constituted additions to a cafe and cocktail lounge located at 255 Mission Boulevard, Riverside, California, the estimated total cost of which was \$2500. The limit provided by Conservation Order L-41 was \$200. Also, on or about April 1, 1943, without authority, he commenced certain residential construction at 3921 Whittier Place, Riverside, California, at an estimated cost in excess of \$1300. The limit provided by Conservation Order L-41 was \$200 in this instance also. Carl Julius Carlson admits having knowledge of the provisions of Conservation Order L-41 prior to the time this construction was commenced and knowledge that the construction would exceed the permitted amounts. His acts must be deemed to constitute wilful violations of the order.

These violations of Conservation Order L-41 have diverted materials to uses unauthorized by the War Production Board and have hampered and impeded the war effort of the United States. In view

of the foregoing, it is hereby ordered, that:

§ 1010.502 *Suspension Order No. S-502.* (a) Deliveries of material to Carl Julius Carlson, his successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation or allotment shall be made to Carl Julius Carlson, his successors or assigns, of any material or product, the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) The terms of this suspension order shall not apply to construction as "construction" is defined in Conservation Order L-41, which has been begun prior to the effective date of this suspension order.

(d) Nothing contained in this order shall be deemed to relieve Carl Julius Carlson, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions of this order.

(e) This order shall take effect on March 29, 1944, and shall expire on June 29, 1944.

Issued this 22d day of March 1944.

[General Imports Order M-63, as Amended
Mar. 30, 1944]

§ 1042.1 *General Imports Order M-63—(a) Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for

transshipment to Canada, Mexico, or any other foreign country.

(5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(6) Material shall be deemed "in transit" if it is afloat, if an on board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M-63.

(b) *Restrictions on imports of materials—(1) General restriction.* No person, except as authorized in writing by the War Production Board, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order, regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon List I, List II, and List III attached hereto.

(2) *Authorization by War Production Board.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form WPB-1041 (formerly PD-222C) addressed to the War Production Board, Ref.: M-63, Washington 25, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation after the governing date of any material subject to this order, unless such bank or person either has received a copy of the authorization issued by the War Production Board under the provisions of paragraph (b) (2) or is satisfied from known facts that the proposed transaction comes within the exceptions set forth in paragraph (b) (4).

(4) *Exceptions.* Unless otherwise directed by the War Production Board, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Foreign Economic Administration, Commodity Credit Corporation,

Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency, or corporation; or

(ii) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(iii) To any material which on the governing date was in transit to a point within the continental United States.

(iv) [Deleted Mar. 30, 1944]

(v) To materials consigned as gifts or as samples, or for use as samples, or imported for personal use, where the value of each consignment or shipment is less than \$200.00; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States; or

(vii) To any material on List I or List II imported by any person under any contract or other arrangement made before, or in existence on the governing date and which, on December 28, 1942, was in transit to a point within the continental United States; or

(viii) To manufactured materials which are imported in bond solely for the purpose of having them repaired and then returned to the owner outside the continental United States; or

(ix) To materials which were grown, produced, or manufactured in the continental United States, and which were shipped outside the continental United States on consignment or pursuant to a contract of purchase, and which are now returned as rejected by the prospective purchaser; or

(x) To materials shipped into the United States in transit from one point in Mexico to another point in Mexico, or from one point in Canada to another point in Canada.

(c) *Restrictions on disposition of List I material.* Except as hereinafter specifically provided in paragraph (d) hereof:

(1) *Restrictions upon owners and consignees.* No owner or consignee of any material on List I which is imported after the governing date shall in any way, directly or indirectly:

(i) Dispose of any interest in such material;

(ii) Process or in any way change the physical condition of such material;

(iii) Transfer possession, or cause or permit a transfer of possession, of such material except to the port of entry and from the port of entry to the place of initial storage of such material; or

(iv) Change, or cause or permit a change of, the location of such material except to the port of entry and from the port of entry to the place of initial storage of such material.

Provided: That a consignee of such material may dispose of his interest in such material to the extent necessary to complete any commitment or contract made prior to the governing date. The person

to whom he disposes of such interest shall be subject to all restrictions imposed upon owners by this order.

(2) *Restrictions upon banks and persons similarly situated.* No bank or other person which, as agent, pledgee, beneficiary under a trust receipt, or otherwise, has possession of or any interest in any written instrument evidencing any interest in any material on List I shall in any way, directly or indirectly, dispose of any such interest, or transfer possession, or cause or permit a transfer of possession, of such instrument, unless:

(i) Such material was imported before the governing date; or

(ii) Such person neither knows nor has reason to know that such material was imported after the governing date; or

(iii) Such disposition or transfer is necessary to permit a consignee to make a permissible disposition of material in accordance with subparagraph (1) of this paragraph (c); or

(iv) Such disposition or transfer is made to the owner of the material and such owner has complied with all the provisions of this order.

(d) *Permissible disposition of List I materials*—(1) *Transfer to governmental agency.* Nothing contained in this order shall prohibit an owner or consignee of any material on List I imported after the governing date, or a bank or other person having possession of, or an interest in, a written instrument evidencing an interest in such material, from disposing of, or making any arrangement to dispose of, any interest in such material to the Foreign Economic Administration, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation.

(2) *Authorization by War Production Board.* Notwithstanding the provisions of paragraph (c), an owner or consignee of material on List I imported after the governing date or a bank or other person having possession of or an interest in a written instrument evidencing an interest in such material, may process such material or may dispose of any interest in such material or any such written instrument, or transfer possession or change the location thereof, or cause or permit such a transfer of possession or change of location, upon written authorization by the War Production Board. Any such person may make application in duplicate for such an authorization on Form WPB-1039 (formerly PD-222A), which form shall be addressed to the War Production Board, Ref.: M-63, Washington 25, D. C.

(3) *Exceptions.* The restrictions set forth in paragraph (c) shall not apply to any material after any United States governmental department, agency, or corporation becomes the owner thereof, and shall not apply to any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, and shall not apply to any material pur-

chased or otherwise acquired from any United States governmental department agency, or corporation.

(e) *Restrictions on disposition of List II or List III material.* Unless otherwise provided by the terms of the authorization issued pursuant to paragraph (b) (2), any material on List II or List III, which is imported in accordance with the provisions of this order after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable provisions of the regulations of the War Production Board and to all orders and directions of the War Production Board which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports on customs entry.* No material which is imported after the governing date, including materials imported by or for the account of the Foreign Economic Administration, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form WPB-1040 (formerly PD-222B) in duplicate. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the War Production Board, Division of Stockpiling and Transportation, Ref.: M-63, Washington 25, D. C.

(2) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

(g) *Routing of communications.* All communications concerning this order shall, unless otherwise herein directed, be addressed to: War Production Board, Washington 25, D. C., Ref.: M-63.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority assistance. In addition, the War Production

Board may direct the disposition and use of any material which is imported without authorization as required by paragraph (b).

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(j) *Effect on liability of removal of material from order.* The removal of any material from the order shall not be construed to affect in any way any liability for violation of the order which accrued or was incurred prior to the date of removal.

This amended order shall become effective March 30, 1944.

Issued this 30th day of March 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

N. S. C.—No separate class or commodity number has been assigned for the material as described by the Department of Commerce, Statistical Classification of Imports.

INTERPRETATION 1

No authorization under paragraph (b) of the order is necessary for the release or withdrawal of materials on List II or List III from a free port, a free zone, or the bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States regardless of the date when such materials first entered such place. The actual importation, which is the subject of restriction under paragraph (b), is deemed to have occurred before the question of release or withdrawal arises. Also, no authorization under paragraph (d) of the order is necessary for the subsequent disposition,

processing, or shipment of such released or withdrawn List II and List III materials.

As to List I materials which are similarly situated, no authorization under paragraph (b) of the order is necessary for their release or withdrawal from free port, free zone, or bonded custody, but authorization under paragraph (d) of the order is necessary for their subsequent disposition, processing, or shipment unless they are shipped in bond to Canada, Mexico, or some other foreign country, in which event the foreign destination is deemed to be the place of initial storage as such term is used in the order; *Provided, however*, That List I materials which are imported in bond after July 2, 1942, can be shipped to Mexico, Canada, or some other foreign country without the express authorization required under paragraph (d) only if the import application filed under paragraph (b) stated that the material was being imported for the purpose of such export shipment. (Issued June 30, 1942, and amended Sept. 23, 1943.)

INTERPRETATION 2

The following official interpretation is hereby issued by the War Production Board with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M-63 (§ 1042.1) as amended:

By amendment dated December 17, 1942, the definition of material "in transit" was changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to a specified port and from thence by boat to a point within the continental United States. The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship, the material must have been afloat, or on board ocean bill of lading must have been issued with respect to it, on the governing date in order for it to be considered as having been in transit on such date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a

point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

INTERPRETATION 3

When by amendment of the order a material already on List II or List III is moved to List I and hence becomes subject to the restrictions of paragraph (c) covering the disposition, processing, transfer, or change of location of such material, the governing date for the application of such restrictions is the effective date of the amendment by which the material was moved to List I and not the date when such material first became subject to General Imports Order M-63. (Issued May 14, 1943.)

PART 1042—IMPORTS OF STRATEGIC MATERIALS

[Supplemental General Imports Order M-63-a, as Amended Mar. 30, 1944]

Pursuant to General Imports Order M-63, as amended, which this order supplements, it is hereby ordered, that:

§ 1042.2 *Supplemental General Imports Order M-63-a*. Until further order of the War Production Board, the provisions of General Imports Order M-63, as amended June 2, 1942, and thereafter, shall not apply to materials on List III of said order which are located in, and are the growth, production, or manufacture of, and are transported into the continental United States overland, by air, or by inland waterway from, Canada, Mexico, Guatemala, or El Salvador, except with respect to materials listed on Schedule A attached hereto.

PART 1076—PLUMBING AND HEATING
SIMPLIFICATION

[Limitation Order L-42, Direction 2]

CAST IRON BATHTUBS

The following direction is issued pursuant to Limitation Order L-42:

(a) *What this direction does.* The War Production Board having determined upon a program of production of metal bathtubs for the remainder of the year 1944, has authorized the production of 50,000 bathtubs for the second quarter. This direction tells by whom and for what purposes bathtubs may be made in order to produce the required 50,000 metal bathtubs, without utilizing labor in critical labor areas.

(b) *Production of bathtubs.* Prior to July 1, 1944, in addition to the bathtubs authorized by Direction #1 to Limitation Order L-42, the following manufacturers may produce at their plants at the addresses indicated, recess type cast iron bathtubs, no longer than those commercially known as five foot, and in quantities not exceeding the number indicated opposite their names:

American Radiator & Standard Sanitary Corp., Louisville, Ky-----	10, 500
Crane Company, Chattanooga, Tenn.-----	10, 500
Eljer Company, Salem, Ohio-----	3, 000
Elwood Company, Ellwood City, Pa-----	5, 000
Kohler Company, Kohler, Wisconsin-----	10, 500
Richmond Radiator Company, Uniontown, Pa-----	10, 500

(c) *Sale of bathtubs.* These bathtubs may be delivered only to fill orders of or for ultimate delivery to the Army or Navy, or for export authorized by the Foreign Economic Administration, or for approved installation in projects rated in the P-19 series authorized by GA-1456 and in the P-55 series authorized by WPB-2896. This does not mean that a jobber or dealer may get these tubs to replace in his inventory tubs or other equipment he has previously delivered to fill such orders. It means that delivery to a jobber or dealer may be made to enable him to deliver the tubs to fill an actual order for an authorized project or building with a specified completion date, to or for the account of the Army or Navy, or for installation in a project rated by orders in the P-19 or P-55 series. Shipments for export may be made only if a license has actually been issued by the Foreign Economic Administration. A manufacturer may not accept a rating alone as evidence of his authority to deliver to a dealer, but must obtain, in addition to the standard certification accompanying the extension of the rating, applicable information of the following nature:

1. For delivery to the Army or Navy, the contract, purchase order, or rating certificate number.
2. For delivery to an authorized project of the P-19 or P-55 series, the number and location of the project.
3. For export authorized by the Foreign Economic Administration, the export license number.

(d) *Crating.* No manufacturer may use better than No. 3 quality grades of lumber in crating these bathtubs.

(e) *Reports.* Each manufacturer named in paragraph (b) shall report by letter on or before the 10th day of each month to the Plumbing and Heating Division, War Production Board, Washington 25, D. C., by size, the number of bathtubs produced and the number shipped under this direction during the preceding month. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Effect of other orders.* The restriction of Schedule X-II to Order L-42 are superseded to the extent necessary to give effect to this direction.

Issued this 30th day of March 1944.

PART 1204—PHTHALIC ALKYD RESINS

[General Preference Order M-139, Direction 1]

REVOCATION OF AUTHORIZATIONS ISSUED
PRIOR TO FEBRUARY 15, 1944

The following direction is issued pursuant to General Preference Order M-139:

All authorizations issued to any person prior to February 15, 1944, for the use of phthalic alkyd resins, are hereby revoked.

This direction does not apply to phthalic alkyd resins which, on March 30, 1944, have been put into process for uses authorized prior to February 15, 1944, and are no longer in the form in which such resins are delivered for resale or consumption. This direction is made necessary because of the critical shortage of phthalic alkyd resins and the ingredients of those resins. All end uses authorized on and after February 15, 1944, are still valid for the quantities authorized for those end uses.

Issued this 30th day of March 1944.

Recording Secretary.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[General Conservation Order L-250, as Amended Mar. 30, 1944]

ELECTRIC MOTOR CONTROLLERS

The fulfillment of requirements for the defense of the United States has created

a shortage in the supply of certain critical materials and facilities used in the manufacture of electric motor controllers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.97 *General Conservation Order L-250—(a) Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any enterprise to the extent that it is engaged in the business of manufacturing controllers, and includes sales and distribution outlets and warehouses controlled by any such person.

(3) "Manufacture" means the production, fabrication or assembly of any controller, or of any part thereof.

(4) "Controller" means any new device or equipment used to stop, start or regulate electric motors or to protect electric motors against overheating or overloading; including manual and magnetic starters and controllers, contactors and relays, speed regulators, drum switches, shunt or series coil type thermal or magnetic overload relays (except switch gear induction type relays), motor field rheostats, and solenoid, thruster and torque motor brakes; and related pilot devices such as push button stations, and limit, pressure and float switches. The term does not include wiring devices or snap switches rated 15 amperes or less; safety switches; fuses; air circuit breakers; oil circuit breakers; domestic type thermostats, refrigeration controls or furnace controls; or any replacement part for a passenger automobile, truck, truck trailer, passenger carrier, motorized fire equipment, or off-the-highway motor vehicle, as defined in Limitation Order L-158, as amended.

(5) "Commercial" as applied to a size, type or rating of a product means any size, type or rating thereof heretofore normally produced by any producer as a standard item, for his inventory or for general distribution, and not in fulfillment of special orders.

(b) *Restrictions on orders.* No manufacturer shall accept any order for any controller or part thereof, unless the order bears a preference rating of AA-5 or higher. The restrictions of this paragraph shall not apply to any order for any controllers, or parts thereof, for use on elevators and manufactured by a person engaged primarily in the production of elevators.

(c) *Restrictions on manufacture.* (1) Except as otherwise provided herein, on and after March 1, 1943, no manufacturer shall accept any order, or commence manufacture in fulfillment of any order, for any controller or part thereof unless such controller or part is to be manufactured in accordance with the standards prescribed in subparagraph (2) below. On and after May 14, 1943, no manufacturer shall deliver any controller or part thereof, unless it has been manufactured in accordance with such standards. The limitations of this sub-

paragraph shall not apply to any order for, or delivery of any controller or part which was completely fabricated on or before February 13, 1943.

(2) Subject to the other provisions of this paragraph, all controllers and parts thereof shall be manufactured in compliance with the following requirements and shall be otherwise of the simplest practicable design:

(i) All control circuit wiring shall follow a straight line between terminals except where, and to the extent that deviation therefrom is necessary to avoid electrical or mechanical interference.

(ii) Control circuit wiring carrying 15 amperes or less shall have no greater copper content than size No. 14 AWG wire; except when and to the extent that a larger copper content is required to avoid abnormal voltage drop or heating.

(iii) [Deleted Mar. 30, 1944]

(iv) No control circuit wiring insulation between terminals on a controller shall be of more than one color for each voltage.

(v) No controller of a type listed in Appendix A, for a single motor, shall include a contactor having an ampere rating in excess of the maximum rating prescribed in the appendix for such controller; except where operation of a general purpose controller, as covered by Table No. 1 or Table No. 4 of Appendix A requires repeated opening of stalled motor current (such as plug-stop or jogging (inching) duty) at a rate in excess of 5 per minute.

(vi) No general purpose controller, for a single motor, of the type listed below rated 600 volts or less shall include control circuit fuses or a control circuit disconnect switch:

(a) Alternating current magnetic across the line type starters;

(b) Alternating current magnetic reduced voltage autotransformer, reactor, impedance, or primary resistance type starters;

(c) Alternating current combination across the line starters and thermal or magnetic circuit breakers;

(d) Alternating current combination across the line starters and motor circuit switches.

(e) Direct current reduced voltage controllers.

(f) Direct current, reduced voltage controllers with motor circuit switches or thermal or magnetic circuit breakers.

(vii) No general purpose controller, for a single motor, of the types listed below rated 600 volts or less shall include a control transformer unless master switches or pilot devices of the necessary rating are not obtainable as a commercial product:

(a) Alternating current magnetic across the line type starters;

(b) Alternating current magnetic reduced voltage autotransformer, reactor, impedance, or primary resistance type starters;

(c) Alternating current combination across the line starters and thermal or magnetic circuit breakers;

(d) Alternating current combination across the line starters and motor circuit switches.

(viii) No alternating current controller of the reduced voltage autotrans-

former, reactor, impedance, or primary resistance type shall be provided for a polyphase induction motor of 20 horsepower or less, rated 600 volts or less, except that the limitations of this paragraph shall not apply to a controller for an elevator, hoist or crane.

(ix) [Deleted Mar. 30, 1944]

(x) No controller shall be supplied with built in test jacks or test receptacles.

(xi) No alternating current motor controller of less than 1,000 horsepower, and no direct current motor controller of 50 horsepower or less, shall include instruments, meters, potential transformers, or current transformers or shunts to be used for metering, mounted on the controller panel or enclosure; but this restriction shall not apply to controllers used to regulate a series of direct current motors driving a common load, nor to alternating current line ammeter and direct current field ammeter to be installed on synchronous motor controllers, nor to ampere hour meters to be installed on industrial truck or locomotive control panels.

(xii) No copper, chromium, nickel, cadmium, or alloys or finishes thereof shall be used in the manufacture of enclosing cases, name plates, identification plates or door handles for controllers.

(xiii) [Deleted Mar. 30, 1944]

(3) The limitations of paragraph (c) shall not apply to any controller delivered for use aboard any ship owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration.

(d) *Miscellaneous provisions—*

(1) *Records and reports.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventories, production and sales. All such persons shall execute and file with the War Production Board, such reports and questionnaires as the Board shall request from time to time, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Appeals.* Any appeal from the provisions of this order may be made by either the manufacturer or the proposed purchaser. Any such appeal shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. This letter must be filed with the field office of the War Production Board for the district in

which is located the plant or branch of the appellant to which the appeal relates. On appeals from the provisions of paragraph (c) (2) (viii), the letter shall include the following data:

(i) Horsepower, voltage, frequency and phase of the motor to be controlled;

(ii) The kva rating of the transformer bank supplying the motor;

(iii) The maximum load on the transformer bank, exclusive of the motor to be controlled;

(iv) Description of the equipment being driven by the motor if reduced voltage starter is necessary to limit starting torque;

(v) And any other information necessary to establish the need for a reduced voltage starter.

(4) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, General Industrial Equipment Division, Washington 25, D. C.; Ref.: L-250.

Issued this 30th day of March 1944.

INTERPRETATION 2

Subparagraph (c) (3) of § 1226.97 (General Conservation Order L-250) provides that the limitations of paragraph (c) shall not apply to any controller delivered for use aboard any ship owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration. A question has been raised as to the proper classification of floating dry docks. It was contemplated that floating dry docks produced for service anywhere would be considered ships within the meaning of the paragraph. (Issued June 15, 1943.)

INTERPRETATION 3

The question has been raised as to whether the word "controller", as defined in paragraph (a) (4), includes a controller which is incorporated into a larger assembly, as a component part of the assembly.

The word "controller", as thus used, includes any controller (except those which are specifically excluded in the definition), regardless of whether it is assembled with other apparatus, or mounted individually. (Issued Nov. 1, 1943.)

[CMP Reg. 2, Inventory Direction 15]

CAN MANUFACTURERS IN THE PACIFIC COAST AREA

§ 3175.115 *Inventory Direction No. 15.* Pursuant to paragraph (b) (2) of CMP Regulation 2, It is hereby ordered, That:

During the period from the date of this Direction through September 30, 1944, the provisions of paragraph (b) (1) of CMP Regulation 2 shall not apply to the acceptance of deliveries, in the States of Washington, Oregon, California and Utah, of tinplate for the

manufacture of cans. In lieu thereof, until September 30, 1944, no user of controlled material shall accept delivery in such States of any item of tinplate for the manufacture of cans if its inventory of such item is, or will by virtue of such acceptance become, greater than the quantity of such item it will be required by current practices to put into use during the succeeding 90-day period in order to carry out its authorized operations. After September 30, 1944, this inventory direction shall cease to be of any effect and the provisions of paragraph (b) (1) of CMP Regulation 2 shall apply.

PART 3289—RADIO AND RADAR DIVISION
[General Limitation Order L-265,
Interpretation 1]

RADIO CABINETS AND RADIO RECEIVING SETS

This is an official interpretation of § 3289.31, *General Limitation Order L-265.*

(1) Radio cabinets, regardless of the material from which made, are included within the definition of "electronic equipment", in paragraph (a) (3) of the order; and are subject, therefore, to all of the provisions of the order. A radio cabinet is any type of cabinet designed to contain a radio, even though other things may also be contained in it.

(2) Paragraph (c) (1) (i) provides in part that the provisions of the order do not apply to the transfer of "radio receiving sets" which were produced and designed for home use and which were completely manufactured on or before April 24, 1943. There seems to exist on the part of some persons the erroneous impression that if a set was partly assembled or almost complete on or before April 24, 1943, it could be finished and transferred free of the restrictions of the order. Some persons have even taken the position that if parts were on hand on April 24, 1943, their assembly into a set and its transfer thereafter were not subject to the provisions

of the order. Both such ideas are definitely mistaken. The term "radio receiving set", as used in paragraph (c) (1) (i), means a home radio receiver which was completely assembled (including cabinet installation), and ready for operation on or before April 24, 1943. If any part (such as cabinet, speaker, or transformers, etc.) has been added or has to be added to the set since that date and before its transfer, then its transfer is not exempt from the provisions of the order.

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 15² to GMPR, Amdt. 22]

PRIVATE BRANDS OF SMOKING TOBACCO

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1499.75 (a) is amended by adding a subparagraph to read as follows:

(13) *Private brands of smoking tobacco.* Any manufacturer of a private brand of smoking tobacco may apply for adjustment of his maximum price for such private brand if:

*Copies may be obtained from the Office of Price Administration.

¹ 7 F.R. 7244, 8946; 8 F.R. 12747.

² 7 F.R. 8959, 9819, 10584, 11006; 8 F.R. 1201, 6443, 8614, 9026, 11873, 13255, 13395, 13724, 15197, 16298, 16796, 17228; 9 F.R. 755, 908, 1948, 2569.

(i) His over-all net profits, before income taxes, during his last fiscal year, are not greater than his average over-all net profits, before income taxes, during the period 1936-1939, inclusive; or

(ii) His over-all net profits, before income taxes, during his last fiscal year, are greater than his average over-all net profits, before income taxes, during the period 1936-1939, inclusive, and the total cost to him of the private brand of smoking tobacco exceeds his maximum net selling price therefor; and

(iii) His continued production of the private brand of smoking tobacco is threatened or its manufacture has been curtailed or discontinued.

"Private brand of smoking tobacco" means a brand of smoking tobacco bearing a brand name owned privately and duly registered by a person selling and distributing the product on his own behalf, and which is manufactured for him according to his specifications and requirements.

A manufacturer of a private brand of smoking tobacco who desires an adjustment in his maximum price for such private brand shall send to the Office of Price Administration, Washington, D. C., an application containing the following information:

(i) His present and requested maximum net selling prices per dozen.

(ii) The date and the complete terms of the agreement between him and the private brand owner pursuant to which the smoking tobacco is manufactured.

(iii) A statement in detail showing why he finds it necessary to request an increase in his maximum price in order to continue producing the particular brand of smoking tobacco for the private brand owner.

(iv) His present detailed costs, prepared in accordance with his usual system of accounts, of the private brand of smoking tobacco.

(v) His present detailed costs, prepared in accordance with his usual system of accounts, of his own most comparable brand of smoking tobacco, and his present maximum net selling price per dozen of such brand.

(vi) His profit and loss statements for the period 1936-1939, inclusive, and for his last fiscal year, prepared in accordance with his usual system of accounts, unless such data have been previously made available to the Office of Price Administration.

(vii) His current volume of sales of the private brand of smoking tobacco or, if the production of such smoking tobacco has been discontinued, the volume of sales which may be reasonably expected if his present maximum price is adjusted upward.

(viii) A statement signed by the private brand owner that he will absorb and will not pass on to any purchaser the requested increase or any part thereof, and that such increase will not be made the basis of any future request for adjustment of his maximum price for such smoking tobacco.

Any adjustment granted under this subparagraph shall be limited as follows:

(i) If the manufacturer's over-all net profits, before income taxes, for his last fiscal year are not greater than his average over-all net profits during the period 1936-1939, inclusive, the adjustment shall not exceed the total cost to him of the private brand of smoking tobacco plus a reasonable profit. In determining what is a reasonable profit, the Office of Price Administration will consider the net profit per dozen realized on sales of his own most comparable brand of smoking tobacco. No adjustment made in such instance may result in over-all net profits greater than his average over-all net profits during the period 1936-1939, inclusive.

(ii) If the manufacturer's over-all net profits, before income taxes, for his last fiscal year are greater than his average over-all net profits during the period 1936-1939, inclusive, the adjustment shall not exceed the total cost to him of the private brand of smoking tobacco.

The Office of Price Administration shall authorize or deny by order the adjustment requested. The authorization so granted may be revoked at any time by the Price Administrator.

This amendment shall become effective April 5, 1944.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4631)

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 30th day of March 1944.

GENERAL PROVISIONS

§ 7.1 *Purpose of regulations.* The regulations contained in this part are promulgated for the protection of vessels, harbors, ports and waterfront facilities. Nothing contained in this part shall be construed to repeal or supersede the provisions of the regulations relating to the Security of Ports and the Control of Vessels in the Navigable Waters in the United States (33 CFR, Part 6), Explosives or Other Dangerous Articles on Board Vessels as amended (46 CFR, Part 146), or the Regulations Relating to Tank Vessels as amended (46 CFR, Parts 30-38 incl.), or any other law or regulation not inconsistent herewith promulgated by any Federal, State, municipal, port, or other lawful agency for the protection of waterfront facilities.

§ 7.2 *Application.* The regulations contained in this part shall apply to all piers, wharves, docks, or similar structures to which vessels may be secured, buildings on such structures or contiguous to them, and equipment and materials on such structures or in such buildings on all navigable waters of the United States, Alaska, the Territory of Hawaii, Puerto Rico, and the Virgin Islands, but shall not apply to shipyards and facilities used in connection therewith or to such waterfront facilities as may be directly operated by the War Department or the Navy Department. Whenever the term "waterfront facilities" is used in this part it shall mean all piers, wharves, docks, and similar structures to which vessels may be secured, buildings on such structures or contiguous to them, and equipment and materials on such structures or in such buildings.

§ 7.3 *Administration.* The regulations contained in this part shall be administered by the U. S. Coast Guard Captain of the Port under the general supervision of the District Coast Guard Officer. Pursuant to order of the Chief of Naval Operations any waterfront facility may be specifically assigned to the Navy for the purpose of security inspection. In any such case, the regulations in this part may be administered with respect to such facility by the Naval District Commandant. Such officer may exercise with respect to such facility all the powers and authority granted to the Captain of the Port by the regulations contained in this part. The Captain of the Port shall give notice to the owner, lessee, or operator of such facility of such assignment and of the officer of the Navy authorized to administer the regulations.

§ 7.4 *Special orders of the Captain of the Port.* Whenever the Captain of the Port shall find that the conditions of construction, maintenance, equipment, or operation of any waterfront facility or of any other waterfront property creates a hazard of destruction, loss, or injury from sabotage or other subversive acts, accident, fire or other causes of a similar nature to such waterfront facility or to any other waterfront facility, he is authorized to issue such special orders not inconsistent with the regulations contained in this part as he shall find to be necessary to eliminate such hazard, and the owner, lessee, and operator of such waterfront facility or such other waterfront property shall comply with such orders.

§ 7.5 *Powers of the Captain of the Port.* The Captain of the Port and his duly authorized representatives shall have the right of entry to waterfront facilities at all times. The Captain of the Port may cause to be inspected and searched at any time, any waterfront facility or any person or package thereon, may place guards thereon, and may remove therefrom any or all persons not specifically authorized by him to go or remain thereon.

§ 7.6 *Responsibility for compliance.* Owners, lessees, and operators of waterfront facilities are required to comply with the regulations contained in this part and shall be responsible for taking all necessary measures to comply therewith. Nothing in the regulations contained in this part shall be construed to relieve the owners, lessees, and operators of waterfront facilities from their responsibility for the protection of such facilities.

§ 7.7 *Waiver authority based on local or unusual conditions.* Whenever the Commandant, U. S. Coast Guard, the District Coast Guard Officer, or the Captain of the Port shall find that the application of any provision of the regulations contained in this part is not necessary to the security of a waterfront facility or of the port, or that its application is not practical because the materials or personnel required for compliance are not available, or because the protection of the particular facility is not essential

to the war effort or to the security of other facilities or vessels moored thereto, he may waive compliance with such provisions to the extent and upon the conditions determined by him; such waivers and requests therefor shall be in writing.

§ 7.8 *Special circumstances.* In case of emergency circumstances causing imminent hazard to a waterfront facility or vessel and in the absence of specific orders from the Captain of the Port, nothing in these regulations shall be construed as prohibiting the owner, lessee, or operator thereof from pursuing the most effective course of action in his judgment for the safety of the property.

SABOTAGE

§ 7.15 *Precautions against sabotage.* The owner, lessee, and operator of a waterfront facility shall take all necessary precautions to protect such facilities from sabotage.

§ 7.16 *Reporting of sabotage.* The evidence of or suspicion of sabotage or any other subversive activity involving a waterfront facility or personnel employed thereon, shall be reported immediately to the Captain of the Port, the nearest representative of the Naval Intelligence Service and the Federal Bureau of Investigation.

GUARDING OF WATERFRONT FACILITIES

§ 7.20 *Adequate guard protection.* Guards shall be provided for the protection of waterfront facilities in such numbers as to assure adequate surveillance, prevent unlawful entrance, detect fire hazards, and to check the readiness of protective equipment. The Captain of the Port is authorized to require additional guards upon a finding that the owner, lessee, and operator of such facilities have not provided guards in the manner required by this section.

§ 7.21 *How guards are provided.* All guards required by the regulations contained in this part shall be provided by the owners, lessees, and operators of waterfront facilities.

§ 7.22 *Qualifications of guards.* Guards shall be citizens of the United States, of good character and satisfactory physical condition. No person shall be employed as guard upon a waterfront facility if the Captain of the Port shall find that by reason of misconduct, inattention to duty, negligence or other causes, such person would thereby endanger the security of a waterfront facility.

§ 7.23 *Instruction of guards.* The owners, lessees, and operators of waterfront facilities shall be responsible for the instruction of guards in their duties and for the supervision of the performance of such duties, except in the case of Coast Guard Police and Auxiliary Military Police.

IDENTIFICATION AND PASSES

§ 7.25 *Basic requirements.* No person shall enter upon or be permitted to enter any waterfront facility unless he shall possess all of the following:

(a) A Coast Guard identification card or other means of identification acceptable to the Captain of the Port.

(b) Any of the following kinds of passes:

(1) A badge or card issued by the company or individual operating the waterfront facility and bearing the name of the person to whom issued.

(2) Express permission (oral or written) from the owner, lessee, or operator of a waterfront facility or his duly authorized representative, valid for a single day or for a single entrance to the waterfront facility.

(3) A daily work ticket or other evidence of legitimate employment on a waterfront facility, acceptable for the date of issue only, which is issued by stevedoring companies, welding companies, carloading Companies, engineering Companies, railroads, trucking companies, and others whose agents and employees are authorized by the owner, lessee, or operator of the waterfront facilities, to be thereon.

(4) Credentials establishing status as an official of the government of the United States, or of the States or possessions thereof, or of a municipality thereof, whose duties require his presence on a waterfront facility.

(5) A pass when approved by the master, senior deck officer on duty, or representative of the owner in a position of authority of a vessel moored at the waterfront facility.

(6) A certificate of identification or seaman's service record issued to United States Merchant Marine Officers and seamen when the holder thereof is a member, or is to become a member of the crew of a vessel moored at the waterfront facility.

(c) A legitimate reason for seeking entrance to the waterfront facility at that particular time. The provisions of this section shall not apply to any person entering a waterfront facility solely for the purpose of transportation as a passenger on board a passenger carrying vessel to be boarded from such waterfront facility.

FIRE PREVENTION

§ 7.30 *Smoking.* Smoking shall be prohibited on all piers, docks, wharves, and other waterfront facilities except at such portions thereof as may be designated by the owner, lessee, or operator thereof, and approved by the Captain of the Port: *Provided*, That smoking in such areas shall only be permitted in accordance with local ordinances and regulations. Signs shall be conspicuously posted marking such authorized smoking areas. "No Smoking" signs shall be conspicuously posted elsewhere on waterfront facilities.

§ 7.31 *Welding.* Oxyacetylene or similar welding or burning, or other hot work including electric welding or the operation of equipment therewith shall be prohibited on a waterfront facility, except pursuant to the procedure and under the conditions prescribed by the Captain of the Port.

§ 7.32 *Fire watch.* No welding, burning or other hot work on a waterfront

facility in the presence of combustible material likely to become ignited, shall be done except in the presence of a fire watch to be composed of one or more fire guards as may be determined by the Captain of the Port. Suitable fire extinguishing appliance shall be kept readily at hand during the process of such work. The fire watch shall remain on duty from the time hot work is started until after it is completed and danger of ignition is past.

§ 7.33 *Trucks and other motor vehicles.* Trucks and other motor vehicles shall not remain or park upon a waterfront facility except for the purpose of awaiting transportation, for the purpose of discharging or loading cargo or passengers, or for the purpose of performing services in connection with the operation of the facility or in connection with a vessel moored thereto. No truck or other motor vehicle shall be left unattended in such a position as may block the access of fire-fighting apparatus. Refueling of trucks or cars on a waterfront facility is prohibited except in such areas and pursuant to such procedures as may be prescribed by the Captain of the Port.

§ 7.34 *Pier automotive equipment.* Tractors, stackers, lift trucks, hoisters, and other equipment driven by internal combustion engines used on waterfront facilities, shall be of such construction and condition and free from excess grease, oil or lint as not to constitute a fire hazard. Each unit of such equipment shall be provided with an approved type hand extinguisher. When not in use, such equipment shall be stored in a manner and location satisfactory to the Captain of the Port. Gasoline or other fuel used for such equipment, shall be stored and handled in accordance with accepted safe practices, and shall not be stored on waterfront facilities without the approval of the Captain of the Port. Refueling or repairing of such equipment on waterfront facilities is prohibited except in such areas and pursuant to such procedures as may be prescribed by the Captain of the Port.

§ 7.35 *Rubbish and waste materials.* Waterfront facilities shall be kept free from rubbish, debris, and waste materials.

§ 7.36 *Maintenance stores and supplies.* Supplies classified as dangerous by the provisions of the regulations entitled "Explosives and Other Dangerous Articles on Board Vessels" (46 CFR, Part 146), to be used in connection with operation or maintenance of the property or facility, shall not be stored on waterfront facilities except in amounts necessary for normal current operating conditions and such storage shall be in a compartment remote from combustible material and so constructed as to be readily accessible and provide safe storage. Storage compartments must be kept clean and maintained free of scrap materials, empty containers, soiled wiping rags, waste, and other debris. Covered metal containers shall be provided for storage of used wiping cloths and contents removed at the end of each working day. Clothing lockers shall be

maintained clean and orderly and properly ventilated. Fire extinguishing equipment suitable for the type of hazard shall be readily available.

§ 7.37 Electric wiring. New installations of electric wiring and equipment shall be made in accordance with accepted safe practices. Conformity with the requirements of the National Electric Code, 1940 edition and supplement of November, 1943, and the requirements of applicable local regulations shall be deemed evidence of compliance with such accepted safe practices. Materials, fittings, and devices shall be of type and character approved for the intended use by Underwriters Laboratories, Inc., Associated Factory Mutual Laboratories, or U. S. Bureau of Standards. Existing electric wiring shall be maintained in a safe condition, free of defects or modifications which may cause fire or personal injury. Defective or dangerous wiring, equipment, and devices shall be replaced, repaired or permanently disconnected from a source of energy.

§ 7.38 Heating equipment. Heating equipment shall be safely installed and maintained in good operating condition. Adequate clearances to prevent undue heating of nearby combustible materials shall be maintained between heating appliances, chimneys, stove pipes, gas vents or other heat producing elements, and any combustible materials of the floors, walls, partitions or roofs. In general, clearances shall be such that continuous operation of the heat producing device at full capacity will not increase the temperature of nearby woodwork more than 90° above the ambient temperature. Where necessary to prevent contact with movable combustible materials, heating appliances shall be enclosed or screened. Spark arresters shall be provided on chimneys or appliances burning solid fuel used in locations where sparks constitute a hazard to nearby combustible materials. As a guide to safe installation of heating equipment, the appropriate chapters of the National Board of Fire Underwriters Building Code, 1943 Edition, shall be used.

§ 7.39 Fire extinguishing equipment. Fire extinguishing appliances shall be made available in such minimum quantities, locations, and types as the Captain of the Port may prescribe. Installation and maintenance of first aid fire appliances shall not be less than equivalent to the requirements prescribed in the "Standards for First Aid Fire Appliances", issued by the National Board of Fire Underwriters. Fire extinguishing equipment, fire alarms systems and devices, and fire doors and other safety equipment shall be maintained in good operating condition at all times. When the Captain of the Port shall find that the existence of hazardous conditions require such precaution, emergency hose lines shall be led out and other emergency fire-fighting equipment shall be located immediately adjacent to said hazards.

§ 7.40 Marking of fire appliance locations. The locations of all fire appli-

ances, including hydrants, standpipe and hose stations, fire extinguishers, and fire alarm boxes, shall be conspicuously marked and ready accessibility to such appliances shall be maintained.

§ 7.41 Lighting. Subject to applicable dimout and blackout regulations, piers, docks, and wharves to which cargo vessels are moored, shall be illuminated during the hours of darkness. The use of kerosene and gasoline lamps and lanterns on such waterfront facilities is prohibited.

§ 7.42 Arrangement of cargo. Cargo shall be arranged on waterfront facilities according to the individual structures of such facilities, in a manner to permit complete access for the purpose of fire extinguishment. Cargo shall be placed on waterfront facilities under the following conditions:

(a) Two feet of clear and open space shall be maintained free of rubbish, dunnage, or other obstruction, between cargo piles and any side of covered piers and cargo stored thereon. This distance shall be measured from the most prominent projection of the wall such as studing, bracings or other obstructions that are a part of the structure.

(b) Inflammable and combustible cargo shall not be tiered higher than 12 feet. All cargo including inflammable and combustible cargo shall be so tiered as to maintain a clearance between the upper level of the top tier and trusses, beams, girders, or other structural members of not less than 36" and between such upper level and sprinkler heads a clearance of 12" shall be maintained.

(c) There shall be maintained four feet of clear and open operating space around any fire alarm box, standpipe and fire hose, sprinkler valve, fire doors, deck hatches, or any fire-aid fire appliances.

(d) When first-aid fire appliances, alarm boxes, or other safety equipment, or deck hatches are located in a space surrounded by cargo, there shall be maintained a straight, free and open space three feet in width running to the center aisle. This space shall be kept clear of all rubbish, dunnage, or other obstruction.

(e) A center aisle of at least twenty feet in width shall be maintained the entire length of the waterfront facility when control of fire requires trucks to come on the pier. The aisle may be reduced to eight feet in width if such access by fire trucks is not required.

(f) Cross aisles, five feet wide, straight and at right angles to the center aisles, to be maintained at intervals not exceeding seventy-five feet, and extending to the sides of the waterfront facility.

Where the type of cargo to be worked and the construction of a waterfront facility makes compliance with the foregoing provisions impracticable, the Captain of the Port may prescribe such rules for the arrangement of cargo as he may deem necessary and appropriate.

DANGEROUS CARGO

§ 7.50 Approval of facility for dangerous cargo. Explosives, military, am-

munition, inflammable liquids, and other dangerous cargo as defined in the regulations "Explosives and Other Dangerous Articles on Board Vessels" (46 CFR, Part 146) shall not be processed, stored, or packed upon any waterfront facility unless such facility has been authorized by the Captain of the Port for such use.

§ 7.51 Handling of dangerous cargo. Freight classified as dangerous by Coast Guard regulations entitled "Explosives or Other Dangerous Articles on Board Vessels" (46 CFR, Part 146) shall not be handled or stored on any waterfront facility except in accordance with the following regulations:

(a) Explosives and ammunition (except small-arms ammunition) shall not be handled or stored on waterfront facilities except when laden within a railroad or highway vehicle, and then only upon such waterfront facilities that are specifically approved for such purposes by the Captain of the Port.

(b) Small-arms ammunition may be handled or stored on waterfront facilities: *Provided*, Local regulations do not prohibit handling or storage thereon.

(c) Inflammable liquids in metal containers, in amounts exceeding 10 tons, shall not be handled or stored at any one time on waterfront facilities except upon permission of the Captain of the Port. Such liquids in any amounts shall be so handled and stored as to provide maximum separation from combustible materials.

(d) Inflammable liquids and compressed gases shall be so handled and stored upon waterfront facilities as to provide maximum separation between freight consisting of acids or corrosive liquids. Storage for inflammable solids or liquidizing materials shall be so arranged as to prevent moisture coming in contact therewith.

(e) Acids or corrosive liquids shall be so handled and stored as to prevent such acids or liquids in event of leakage from contacting any organic materials.

(f) Poisonous gases or liquids shall be so handled and stored as to prevent their contact with acids, corrosive liquids, or inflammable liquids.

(g) All dangerous articles of freight, including combustible liquids and hazardous articles, shall be arranged in such manner as to retard the spread of fire. This shall be accomplished by interspersing piles of dangerous freight with piles of inert or less combustible materials.

SEPARABILITY AND PENALTY

§ 7.55 Separability. [G. O. 11, Supp. 2]

PART 302—CONTRACTS WITH VESSEL OWNERS AND RATES OF COMPENSATION RELATING THERETO

UNIFORM ADDENDUM TO TIME CHARTERS

§ 302.57 *Uniform addendum to time charters covering adjustments of certain disputed questions.* Whenever appropriate and upon approval of the parties, there shall be executed and made a part of the time charters entered into by the War Shipping Administration pursuant to § 302.50 *Uniform time charter for requisitioned and other dry cargo vessels*¹ (General Order 11) and §§ 302.55 *Requisition time charter for tank vessels*¹ and 302.56 *Uniform time charter terms and conditions for tank vessels*¹ (General Order 11, Supplements 1, 1A, and 1B), the following addendum to cover adjustments of certain disputed questions:

UNIFORM ADDENDUM TO TIME CHARTER COVERING ADJUSTMENTS OF CERTAIN DISPUTED QUESTIONS

ADDENDUM dated the _____ day of _____, 194____, to Requisition Time Charter (Contract No. WSA-____) dated as of _____, 1942, (hereinafter called the Charter) between _____, Owner of the good steel SS MS-_____ (hereinafter called the Vessel) and the United States of America, Charterer.

WHEREAS various disputes have arisen between the Owner and the Charterer with respect to the rights, duties and obligations of the parties under the aforesaid Charter, and

WHEREAS the parties desire to compromise and adjust certain of such disputes to the extent hereinafter set forth pursuant to the statutes and laws of the United States, and

WHEREAS the Administrator, War Shipping Administration, on behalf of the United States has found that such compromise and adjustment would be beneficial to the interest of the United States and would facilitate the prosecution of the war:

Now, THEREFORE, IT IS AGREED that the Charter is hereby amended, effective on the date of the Charter, as follows:

First: The following paragraph shall be inserted between Clause 4 (b) and the present proviso:

"Provided, however, that when the period of time lost to the Charterer on any one occasion is less than twenty-four (24) consecutive hours, hire shall not be reduced for such period unless it exceeds eleven (11)

consecutive hours, in which case such period shall be counted as one day."

Second: Clause 11 is amended by adding thereto the following paragraph:

"The full rate of hire provided in Part I of this Charter shall be paid for all the periods of time required to install any defensive armament (including demagnetization by installed equipment or other process, e. g. degaussing, wiping or deperming) whether installed pursuant to this Clause 11 or during any period of time referred to in the first sentence of § 302.13 (d) (Paragraph 2 (d) of General Order 8 revised) or of § 302.18 (c) (Paragraph 2 (c) of General Order 8, Supp. 1); provided, however, that if during all or any part of any such period, the vessel concurrently undergoes repairs of whatever nature for the Owner's account, except repairs of any damage arising from causes specified in Clause 4 (1), then for the period of such concurrent repairs for the Owner's account, the rate of hire payable shall be reduced one-quarter. The period of such concurrent repairs shall be computed, at the Owner's option, on the basis of time elapsing between the actual commencement and the actual completion of the Owner's repairs, or on the basis of an estimate, submitted by the Owner and approved by the Charterer's local manager of Maintenance and Repair or by some other person designated by the Charterer, of the amount of time that would have been required for Owner's work if it had been performed during normal working hours (not in excess of a two shift basis) and on normal working days, but otherwise without interruption."

Third: Any other provisions of this Charter or any amendments thereto to the contrary notwithstanding, no hire or other moneys which the Charterer or the Owner is obligated to pay to the other under this Charter or any amendment thereto, shall accrue or become due and payable before the execution of this Charter which occurred on _____, 1942, and no hire or other moneys which the Charterer or the Owner is obligated to pay to the other under this Addendum shall accrue or become due and payable before the date of this Addendum.

Fourth: Clause 8 is amended by adding the following to the end thereof:

"Except as to newly constructed vessels delivered by the shipbuilder after December 7, 1941 and as to Vessels lost or requisitioned and delivered for bareboat use or title within six months after delivery under the Charter (which classes of vessels shall be the subject of special agreements), the Charter shall be construed to impose upon the Charterer the full actual cost of providing and maintaining on and after December 7, 1941, all equipment and installations on the Vessel, beyond normal peacetime standards, then or thereafter required by sub-chapter O of chapter 11 of the Regulations of the United States Coast Guard (Title 46, U.S.C.A.), or by other wartime regulations of any agency of the United States, except that if and so long as the Vessel is under time charter after March 1, 1944, the Owner shall provide and pay for renewals, replacements and repairs to lifeboat equipment and for minor repairs to lifeboats not belonging to the Owner, unless any such renewals, replacements or repairs are caused by subsequent increases and changes in wartime Governmental requirements. All costs, which by reason of the Charter as construed by this Amendment, are to be borne by the Charterer but have been incurred by the Owner prior to the date of this Addendum, shall be adjusted and reimbursed in accordance with the foregoing provisions. All such equipment and installations installed in or relating to lifeboats belonging to the Owner shall be the property of the Owner and all other equipment or installations shall belong to the Charterer and shall be considered as equipment installed or as alterations

or additions made by the Charterer pursuant to Clause 11 of the Charter."

In consideration of the foregoing undertaking by the Charterer and the other provisions of this Addendum, the Owner shall forthwith pay or allow to the Charterer as a credit against the hire of the Vessel or against the Owner's prior disbursements for such equipment or installations, the sum of \$175 for each member of the Vessel's normal complement of officers and crew.

IN WITNESS WHEREOF, the Owner has executed this Agreement in quadruplicate on the _____ day of _____, 1944, and the Charterer has executed this agreement in quadruplicate on the _____ day of _____, 1944.

NOTICE OF APPLICATION

MARCH 29, 1944.

Notice is hereby given that on March 15, 1944, Interstate Natural Gas Company, Inc. Any person desiring to be heard or to make any protest with reference to this application should, on or before April 15, 1944, file with the Federal Power Commission a petition or protest in accordance with the rules of practice and regulations of the Commission.

OFFICE OF PRICE ADMINISTRATION.

[RMFR 113, Order 7]

IRON ORE IN MINNESOTA, WISCONSIN, OR MICHIGAN

AUTHORIZATION OF ADJUSTABLE PRICING

Order No. 7 under section 3 of Revised Maximum Price Regulation 113. Iron ore produced in Minnesota, Wisconsin, or Michigan.

The Iron Ore Industry Advisory Committee has advised the Office of Price Administration that it believes that the maximum prices presently established by Revised Maximum Price Regulation 113 for sales of iron ore produced in Minnesota, Wisconsin, or Michigan are not generally fair and equitable in that they fail to provide an adequate return on mining operations. The committee has requested that appropriate adjustments in such prices be made and has recommended that persons subject to the regulation be authorized to deliver or agree to deliver, pending the disposition of its request, iron ore at prices to be adjusted upwards in accordance with action which may be taken by the Office of Price Administration after delivery.

Data reflecting the operations of a representative number of producers have been submitted and are now being analyzed for the purpose of evaluating the committee's recommendations. It has become apparent, however, that due to many uncertain factors in the estimate of operating costs for the coming year and the peculiar seasonal nature of the industry an immediate decision cannot be given. The granting of permission to enter into adjustable pricing agreements is therefore necessary, in the opinion of the Administrator, to promote the distribution of iron ore vitally needed in the war program.

Unlike most manufacturing industries, the iron ore industry in the Lake Superior region conducts its affairs upon a seasonal basis due primarily to the fact that shipments are made only during the months of navigation on the Great Lakes. Customarily, one price is charged for ore shipped during a given season and payments are made in twelve monthly installments. All payments before the end of the season, however, are subject to final adjustment for grade and analysis after all ore has been shipped. Under these circumstances, it is necessary to take measures which will insure that any adjustment in maximum prices which may be granted during the 1944 season will be applicable to all ore shipped during that season. Unless this is done, serious disruption may occur in the even flow of this essential commodity. Uncertainty about price may result in hesitancy to

enter into firm commitments for the full season and producers who ship both captive and merchant ore may find it desirable to restrict shipments of the latter type until a decision has been reached. The granting of authorization to enter into adjustable pricing agreements will remove those difficulties and will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. This action is not to be considered as an indication of whether, or to what extent, an increase in maximum prices will be made.

Therefore, in accordance with section 3 of Maximum Price Regulation 113, it is ordered:

(a) Persons selling iron ore produced in Minnesota, Wisconsin, or Michigan may deliver or agree to deliver, and purchasers may receive or agree to receive, such ore at prices to be adjusted upward after delivery to an amount not in excess of the maximum prices established by the Office of Price Administration in taking final action upon the pending request for an increase in existing maximum prices. Prior to such action, no payment in excess of the maximum prices in effect at time of delivery shall be made or received.

(b) This order shall be automatically revoked upon the effective date of any amendment or other formal action by the Office of Price Administration increasing maximum prices for iron ore produced in Minnesota, Wisconsin, or Michigan or upon denial of the pending request for an increase in the present maximum prices for such ore. It may be revoked or amended by the Administrator at any time.

This order shall become effective March 30, 1944.

Issued this 30th day of March 1944.

Office of Distribution.

ADMINISTRATOR, ALTERNATE ADMINISTRATOR,
AND DEPUTY ADMINISTRATOR OF FOOD
DISTRIBUTION ORDER No. 96

DELEGATION OF AUTHORITY

Pursuant to the authority vested in me by Food Distribution Order No. 96 (9 F.R. 3253), and to effectuate the purposes thereof, it is hereby ordered as follows:

1. The Order Administrator and Alternate Order Administrator of Food Distribution Order No. 96 are hereby authorized:

(a) After consultation with and upon the advice of a committee composed of representatives of the Office of Distribution of the War Food Administration, Office of Production of the War Food Administration, War Production Board, Agricultural Adjustment Administration, and the Commodity Credit Corporation, to name individual processors of corn as "designated purchasers" eligible to purchase corn which has been set aside under Food Distribution Order No. 96, and to withdraw such designations. Designations shall be based upon (1) the processor's inventory of corn, (2) requirements for the commodity or material produced by the processor, and (3) the rate of production necessary in order to enable the processor to retain a necessary minimum operating labor force for the production of essential materials. Designations may be made subject to such conditions as, in the discretion of the Order Administrator or Alternate Order Administrator, will carry out the purposes of Food Distribution Order No. 96;

(b) To require information from processors in order to determine the eligibility of such processors to be designated purchasers;

(c) To grant or deny petitions for relief from hardship under (h) of Food Distribution Order No. 96. In granting such relief, consideration shall be given to the geographical position of the petitioner with reference to a designated purchaser or purchasers, the extent to which such designated purchaser's current requirements for corn have been fulfilled, the quality, quantity, grade, and condition of the corn, and any other factors involving facilities, transportation, economy of operation, or requirements for purposes other than industrial processing, which, in the discretion of the Order Administrator or Alternate Order Administrator, appear to warrant relief.

2. The Deputy Order Administrator of Food Distribution Order No. 96 is hereby authorized, under the supervision and direction of the Order Administrator or Alternate Order Administrator, to perform such duties and functions as are necessary in connection with the administration of Food Distribution Order No. 96, except the function of naming individual processors as designated purchasers or withdrawing such designations. All action taken under this delegation of authority shall be by written notice to

the individual concerned and not by general order.

Nothing herein contained shall be construed as affecting any power or authority vested in the Director of Distribution.

Issued this 29th day of March 1944.
